IMPORT TRADE CONTROL

New Delhi, the 24th June 1953.

SUBJECT:—*Import licensing policy for July-December 1953 for newcomers.*

No. 93-ITC(P.N.)/53.—The following decision of the Government of India regarding the issue of licences to newcomers for the import of certain articles for the licensing period July-December 1953 are published for general information:—

2. The list of items for which licences will be given to newcomers is shown in the list attached to this Public Notice.

3. Persons or firms who have been dealing in the internal trade of the particular commodity for a minimum period of two consecutive years ending 31st March 1953 and who are not eligible to qualify as established importers or actual users can submit applications for newcomer licences.

4. Established importers who do not wish to claim their quota as such may apply as newcomers. Such firms should furnish in addition to the evidence of their past imports, evidence of their turnover giving reasons why a licence as an established importer has not been claimed.

5. Applications should be submitted in the prescribed form together with a certificate from a Chartered Accountant showing that the applicant has been dealing in the internal trade of the country in respect of a particular item and certifying the turnover of the applicant in respect of that item during the period of two consecutive years ending 31st March 1953. The application form as well as the auditor's certificate attached thereto given in the "Hand-book" should be deemed to have been amended accordingly. Documentary evidence should also be furnished in support of purchases of the goods concerned from importers or wholesalers.

6. The minimum turnover which will qualify a newcomer for being considered for the grant of an import licence has been given in the attached list. This condition of minimum turnover will apply only to firms having branches or headquarters at the ports of Bombay, Calcutta and Madras. In the case of firms with headquarters at other places and with no branches at the ports of Bombay, Calcutta and Madras, applications for import licences will be considered if the turnover does not fall below one-fourth of the minimum given in the attached list.

7. Applicants who have received licences as newcomers for the licensing period January-June 1953 need not submit fresh evidence to prove that they have been engaged in the internal trade of the country. It will be sufficient if they will attach to their applications a photostat or a certified copy of the licence received by them for the period January-June 1953. The certificate should be endorsed by a Magistrate of the First Class.

8. Applications from newcomers complete in all respects should reach the appropriate licensing authority on or before the 31st August 1953. Incomplete applications or applications received after that date will not be considered.

9. The minimum value limit of an import licence to be granted to newcomers will be the same as prescribed in the case of established importers. The maximum value of a licence to be issued to a newcomer will not ordinarily exceed the amount shown in the attached list against each item.

10. Government does not bind itself to grant newcomer licences to each applicant.

List of articles for which applications from Newcomers will be considered during the period July—December 1953.

SUBJECT:—*Licensing Policy for Machine Tools for the licensing period July-December 1953*

No. 94-ITC(P.N.)/53.—For purposes of licensing, Machine Tools falling under Part VI of the Import Trade Control Schedule (*vide* Schedule A attached) are divided into two main categories, *viz*:—

- (a) those falling within the definition of Capital Goods, and
- (b) Others.

2. The rules and procedure in the case of Machine Tools falling in the category of Capital Goods have been set out in Chapter II of Plant and Machinery Handbook. The Import policy for Machine Tools which do not come under the Capital Goods Scheme is set out in the succeeding paragraphs. These licences will be issued by the Development Officer (Tools), Tools Directorate, Ministry of Commerce and Industry, New Delhi.

3. Applications will be entertained from established importers, actual users and newcomers.

4. Established importers will be granted general and soft currency licences on the basis of 50 per cent. of half of their best year's imports from the dollar area and 75 per cent. of half of their best years' imports from the soft currency area respectively.

5. The list of machine tools which are manufactured in India and for which import licences will not be valid is given in Schedule B.

6. The procedure prescribed for the grant of licences to established importers in paragraphs 8 to 23 in Section I of the Book will apply *mutatis mutandis* to established importers of Machine tools also.

7. Applications from established importers for grant of supplementary licences will be considered *ad hoc* provided full justification is furnished. The last date for receipt of such applications will be 30th November 1953 and each importer will be allowed to make one such application only.

8. Actual users will be given their licences on the basis of their requirements. They should furnish full justification with particular reference to the end use of the machine tools applied for. Consumption certificates from the Directors of Industries etc. will not be necessary.

9. Licences will be issued to newcomers also. Newcomers should furnish along with their applications a certificate from a chartered accountant certifying the turnover in machine tools during the two consecutive years ending 31st March 1952. No minimum turnover has been prescribed for eligibility to receive a licence.

Newcomers who are sole agents of manufacturers abroad should give particulars of their overseas connection including a copy of the Agreement reached between the newcomer and the manufacturer.

10. All applications whether by established importers, or by actual users or newcomers, should contain full descriptive details of the machine tools desired to be imported. Descriptive catalogues must be sent along with the application.

11. Licences will be given for permissible types of machine tools subject to the proviso that the import of the following types will be limited to such reasonable proportion of the value of the licence as the licensing authority may consider sufficient to meet current requirements:—

- (i) Lathes.
- (ii) Drilling machines.
- (iii) Lathe chucks.
- (iv) Machine vices.

12. Licences for machine tools will also be valid for import of their spares.

13. Licences will continue to be granted to meet specific orders placed by the Director General of Supply and Disposals and Government Railways as heretofore.

14. The validity of licences will, in the case of machine tools required to fulfil D.G.S. & D. and Government Railways contracts, be in accordance with the delivery stipulated in the contract; in other cases licences will ordinarily have a validity of 18 months from the date of issue.

15. The limiting factor for licences for machine tools will be quantity, but if the actual price exceeds the face value of the licence by more than 5 per cent. it will be necessary to present the licence for amendment. Requests for amendment of value will be entertained in respect of quota licences only and the increase, if allowed, will be adjusted against future quotas. In the case of licence for spares, value will be the limiting factor.

16. All applications for machine tools which do not come under the Capital Goods Scheme should be made to the Development Officer, Tools Directorate, Ministry of Commerce and Industry, New Delhi, together with relevant documents in the prescribed form and manner.

3. *Import of Mineral Oils not otherwise specified falling under Serial Number 17 of Part V of the I.T.C. Schedule*

(a) For import of transformer oils, Switch oils and insulating oils falling under, S. No. 17 of Part V of the I.T.C. Schedule separate applications should be submitted for each of the items giving full information in respect of the following points viz: (1) the essentiality and the purpose for which the oil will be used (2) the names of the parties to whom the oil will be supplied together with the requirements of each party, or the quantities supplied to each party during the previous half year and (3) in the cases of imports ex-U.S.A. the justification for their demand giving technical reasons why oils available ex-U.K. are unsuitable for their requirements. General Licences for Transformer Oils, Switch Oil & Insulating Oil will be granted to Established Importers on the basis of a quota of 100 per cent. of half of best year's imports for these grades only from dollar area and soft currency licences on the basis of 200 per cent. of half of best year's imports for these items from Soft Currency Area. 4. Import of lubricating oils falling under Serial No. 20 of Part V of the I.T.C. Schedule

Separate applications should be submitted for oils having viscosity over 90 seconds (Redwood 1 at 140° F) and oils of viscosities 90 seconds (Redwood 1 at 140° F) and less. Applications for the second category i.e., for the light lubricating oils of viscosities 90 seconds and less must mention the enduse giving quantities against each enduse. In order to give importers a certain amount of flexibility of programme, the licences to be issued for the light viscosity oils will not stipulate any viscosity limit, as there is no objection to importers bringing in some high viscosity oils against these licences, the object being solely to restrict the import of light viscosity oils. The licences to be issued for the other category i.e., lubricating oils with a viscosity over 90 seconds (Redwood 1 at 140° F) will contain a condition that the oils to be imported against the licences should have viscosity over 90 seconds.

APPENDIX G—*contd.*

General licences will be granted to established importers on the basis of a quota of 100 per cent. of half of best year's imports from dollar area and soft currency licences on the basis of 200 per cent. of half of best year's imports from soft currency area. In addition, soft currency licences will also be granted at 30 per cent. of half of best year's imports from dollar area. The quota will be a combined one for lubricating oils and greases.

5. Firms, who have imported complete Motor Cycles or Scooters in the past can be granted licences for Motor Cycle parts on the basis of a quota of 10 per cent of half of best year's imports of complete Motor Cycles and Scooters, if they have no quota or a smaller quota for motor cycle parts.

6. It has also been decided to grant licences for Motor Vehicle parts to persons who have been dealing in spare parts of motor-vehicles in the past and were obtaining their supplies through assemblers and other established importers provided they are prepared to invest a substantial sum for importing automobile parts during July—December 1953. Such persons in addition to producing the documents of turn-over prescribed for newcomers should also produce a Bank Certificate to indicate their capacity to invest in the trade in the half year.

IMPORT OF SPECIAL ELECTRIC BULBS WHICH ARE FITTED TO PHOTOGRAPHIC INSTRUMENTS, SCIENTIFIC INSTRUMENTS AND OTHER INSTRUMENTS AND WHICH ARE IN A WAY PART OF SUCH INSTRUMENTS AND WITHOUT WHICH THE INSTRUMENTS BECOME UNSERVICEABLE [PUBLIC NOTICE No. 50-ITC/(P.N.)/52, DATED THE 9TH MAY, 1952].

Representations have been received that scientific, photographic and other instruments are often rendered idle on account of the fact that they need special types of electric bulbs for use with them and normally speaking the importers of such equipment do not hold import licences for electric bulbs. The following decisions have been taken to remove these difficulties:—

- (a) In future, whenever a complete equipment is imported, in which an electric bulb having some peculiarity as to size, shape or filament is used, it will be permissible to import three spare bulbs of precisely the same type and make as is fitted to the equipment imported. If the number of bulbs fitted to the equipment exceeds one, the number of spare bulbs to be imported will be thrice the number of bulbs in the equipment. This concession will be applicable whether the equipment is imported against a licence or under Open General Licence. In the former case the value of the spare bulbs will be debited to the value of the licence against which the equipment is imported. In the latter case, the spare bulbs will be allowed clearance without a licence.
- (b) In order to enable the supply of replacements to equipment already imported in the country in the past, importers holding licences for equipment of a type for which such special non-G.L.S. type lamps are required will be permitted to apply for the endorsement of their existing licences to cover the imports of special types of lamps. This concession will only be granted to established importers who have imported equipment needing such bulbs during the last three years and it will be necessary for them to produce documents (bills of entry and invoices) to show that they have made such imports during each of the last three years. On production of such documents, their existing licences for the import of a particular equipment will be made valid for the import of spare bulbs also upto a value not exceeding 2½ per cent. of the total c.i.f. value of the licence.
- (c) Where the equipment in question has been imported in the past under Open General Licence and continues to be imported under the Open General Licence at present, established importers will be granted a special licence for the import of non-G.L.S. types of bulbs to fit such equipment equal in value to 2½ per cent. of the value of such equipment actually imported by them during any of the three years ending 31st March 1952 provided they produce documents to show that they have been making such imports during each of the last three years.

APPENDIX Q—*contd.*

2 Applications for special licences or endorsements on existing licences in terms of the preceding paragraph should be made to the Import Trade Controllers at the ports with the relevant bills of entry, invoices, etc., and also a treasury chalan where a fresh licence is needed, in the form and manner prescribed in the Handbook.

IMPORT OF SPARE PARTS OF A MAJOR ITEM AGAINST LICENCES ISSUED FOR THE IMPORT OF MAJOR ITEM ONLY [PUBLIC NOTICE No. 29-ITC(P.N.)/52, DATED THE 21ST MARCH, 1952 AS AMENDED BY PUBLIC NOTICE No. 62 ITC(P.N.)/53 DATED THE 11TH APRIL 1953.]

The attention of importers is invited to the Ministry of Commerce Public Notice No. 184-ITC(P.N.)/51, dated the 19th November 1951, on the above subject. It has been represented that the exact scope of the concession regarding the import of spare parts against licences for the import of a major item is not quite clear and might lead to difficulties at the time of clearance of goods on arrival. It has therefore been decided in partial modification of the Public Notice under reference that the scheme will apply to specified items only.

2. For the present the scheme will be applicable to the following articles:—

- (1) Electrical instruments falling under Serial No. 39 of Part II of the Import Trade Control Schedule.
- (2) Electrical instruments, apparatus and appliances specified in Serial Numbers 45 and 46 of Part II.
- (3) Photographic instruments, apparatus and appliances falling under Serial No. 305 of Part IV.
- (4) Electrical instruments, apparatus and appliances falling under Serial No. 78 of Part V.
- (5) Instruments, apparatus and appliances falling under Serial Nos. 92, 93 and 94 of Part V of the Import Trade Control Schedule.

- (7) Electrical Control gear and Electric Transmission gear falling under Serial No. 42 of Part II of the Import Trade Control Schedule.
- (8) Conveyances, not otherwise specified, falling under Serial No. 86 of Part V of the Import Trade Control Schedule.

3. Spare parts for the above items even though classifiable under different serial numbers of the Import Trade Control Schedule will be allowed clearance upto 5 per cent. of the value of the main licence provided that the parts are essential for the working of the major article and have been given for that purpose some special shape or quality which would not be essential for their use for any other purpose.

4. This concession is, however, subject to the condition that no spare part which is for the time being on the prohibited list may be imported.

5. The question of including other articles under the scope of this concession is under examination and additions will be made from time to time. Representations from the trade and industry for the addition of any specific items to this scheme should be addressed to the Chief Controller of Imports, Policy Branch, with such relevant data as will help in coming to a decision on the point.

N.B.—1. Where an actual user or an established importer having firm orders from an actual user desires to import any of the machines listed in this Appendix for own use, the application for an import licence will be considered on an *ad hoc* basis provided full justification for the requirement is given and it is proved that indigenous manufacturers are unable to fabricate the machinery required.

2. Where an actual user or an established importer having firm orders from an actual user desires to import spare parts of any of the machines listed in this Appendix the application for an import licence will be considered on merits, provided detailed reasons justifying the necessity for the imports of the articles applied for are furnished in the application. If the value of the spare parts required to be imported by an actual user having his place of business at (a) Howrah and Calcutta, (b) Madras, and (c) Bombay exceeds, in any half year, Rs. 5,000, the application should be accompanied by a certificate from a qualified Engineer, preferably on the staff of the applicant firm, to the effect that the spare parts required to be imported cannot be fabricated in any of the reputed workshops in (a) Howrah and Calcutta, (b) Madras, and (c) Bombay respectively.

3. Established importers having quota licences for spare parts of machinery falling under S. Nos. 36(5) of Part II, 4(5) of Part III and 65(5) of Part V, may apply for their licences being validated for the import of spares of any of the machines listed in this Appendix upto a value of Rs. 5,000 only. Applications for an endorsement to this effect should be made to the licensing authority concerned together with a detailed list of the parts desired to be imported and a certificate to the effect that these parts cannot be fabricated in any of the reputed workshops in (a) Howrah and Calcutta, (b) Madras and (c) Bombay, as the case may be.

APPENDIX Z

IMPORT OF X-RAY ELECTROMEDICAL EQUIPMENT, ACCESSORIES AND SPARE PARTS OF ELECTROMEDICAL APPARATUS ETC. BY THE SUPPLIERS OF X-RAY AND ELECTROMEDICAL EQUIPMENT.

It has been represented to the Government of India that although electromedical apparatus is allowed to be imported liberally, the suppliers of these apparatuses cannot get spare parts, accessories and supplies of allied nature for servicing and maintaining the existing equipments properly as these accessories, spare parts and articles of allied nature were classified under different Serial Nos. of the Import Trade Control Schedule which are sometimes licensable strictly on a quota basis or are not licensed at all.

2. With a view to maintain the operation of the X-Ray and electro-medical equipment, it has been decided that the suppliers of X-ray and electromedical equipment can apply for their requirements of various articles although they may be falling under different Serial Nos. of the Import Trade Control Schedule under one application. A list of articles desired to be imported in broad categories like rotary converters, transformers, photographic tanks, transformer oil and film hangers etc. and spare parts of the equipment should all be listed and a consolidated application should be made for all these. The requirements should be certified by the All India X-ray and Electro-medical Traders' Association, Bombay.

3. On receipt of the consolidated application giving a list of the articles desired to be imported and the value of each duly certified by the Association, the Import Trade Controller at the port will grant each firm a licence for its consolidated requirements and attach the list of the articles with the licence. Where certain articles are licensed on a quota basis the reasonableness of the demand of those articles can be judged from the firm's quota in respect of that article. The quota for these articles will be merged in the licence allowed under this Public Notice. If the firms concerned have obtained any quota licence they should mention the name of the article and the amount of quota licence allowed so that adjustments for the same can be made, if necessary.

4. Although the value of individual articles as per requirements certified by the Association will be indicated in the list of articles for which the licence is granted, the licence holders can exceed the value of individual items by 25 per cent. of the value for that item provided that the total c.i.f. value of the licence is not exceeded.

5. It has also been decided that the import of one pair each of lead rubber X-ray apron, lead rubber gloves (required for the radiologist) and lead glass "goggles" may be allowed clearance under the O.G.L. when they are imported along with the X-Ray equipment but not separated from it.

APPENDIX ZA

3. The Scheme will apply to applications of an aggregate value of Rs. 25,000 or over for any project or subsidiary thereto.

4. These requirements will be centrally licensed by the Chief Controller of Imports in New Delhi and all the requirements should be put in one application rather than piecemeal according to the Serial Number of the Import Trade Control Schedule. The applications will be treated in the same way as the applications for Capital Goods. They should be made in the form prescribed for Capital Goods and Heavy Electrical Plant and should be submitted in duplicate to Chief Controller of Imports through Central Water and Power Commission, New Delhi.

5. The initial period of validity for these licences will be 1 year from the date of issue and will be extended to a maximum period of 3 years on production of documentary evidence to show that a firm order has been placed and accepted by foreign suppliers. In cases where such evidence is produced at the time of submission of the application, licences will be issued with the maximum period of validity and no further extension will be necessary.

6. The applications should be accompanied with the usual treasury receipt and the Income-tax Verification Certificate Number or the specific exemption number as in the case of Capital Goods applications.

However, not more than 1% of the face value of quota licences issued for tractors may be utilised for the import of ball bearings of the types not specified in Appendix C to this Book). Difficulty has, however, been experienced by importers in clearing consignments against Open General Licence No. XXIX of interchangeable spare parts which can be used for both tractors and motor vehicles. To overcome this difficulty, licences by way of identification certificates will be issued on the recommendation of the Ministry of Food and Agriculture to established importers and others who maintain regular servicing organisations. On the presentation of these licences (identification certificates) the Customs authorities will allow clearance of interchangeable spare parts, without any value limit, against Open General Licence No. XXIX.

4. Importers of tractors will also be granted licences for the import of the following articles on the basis indicated against each:—

- (a) Tractor service tools falling under Serial No. 275 of Part IV upto 10 per cent. of half of best year's imports of tractors;

6. Applications by non-established importers and by established importers for new makes of tractors, Rotary hoes and Tillers not imported by them in the past will be considered, *ad hoc*, on merits. Such applications should be accompanied by the following additional information:—

- (i) Whether they are accredited agents of any manufacturer. Name of the machine and name of manufacturer should be furnished alongwith evidence of sole agency i.e., agency agreement in original;
- (ii) Whether they have adequate workshop facilities and trained engineers for servicing. If so, full particulars of the available servicing facilities should be given duly certified by the Agricultural Department of the State Government concerned;
